

## Press Release

### A service partnership with great potential

**Badisches Druckhaus Baden-Baden is one of the first customers to profit from the alliance between S.E.M. and Koenig & Bauer**

- Successful inspection at Badisches Druckhaus
- Alliance between S.E.M. and Koenig & Bauer
- Assessment of all technical equipment
- DGUV regulation to be enforced

Würzburg, 29.01.2019

Badisches Druckhaus Baden-Baden is one of the first printing companies to benefit from the successful cooperation between S.E.M. and Koenig & Bauer. Within the framework of implementing the German Social Accident Insurance (DGUV) regulations, in particular regulation 3, the cooperation between the two companies went smoothly. "The entire process from the initial inquiry to the completion of the inspection went smoothly. I had my permanent contact person and everything went well," says Paul Haas, managing director of Badisches Druckhaus.

In 2014 a Koenig & Bauer Commander CT for printing up to 48-page newspapers in Berlin format was installed at Badisches Druckhaus. In addition to the daily title "Badisches Tagblatt", the company also produces a number of advertising journals as well as contract jobs for publishers, retailers and industrial companies.

#### **DGUV regulation 3 must be carried out**

§5 of DGUV 3 states: "The contractor shall ensure that electrical installations and equipment are checked regarding their proper condition". Companies can check their own office printers or PCs for example. Nevertheless, the experts from S.E.M. and Koenig & Bauer were commissioned by Badisches Druckhaus to inspect the Commander CT. Koenig & Bauer now not only offers the latest press technology, but also the know-how to carry out DGUV inspections without interrupting production. "This order is a good example of how our customers can benefit from this partnership," says Thomas Potzkai, head of service at Koenig & Bauer. The exchange of knowledge and the use of individual data from our own systems offers customers the greatest possible degree of security and advice.

#### **Koenig & Bauer's alliance with S.E.M. Servicegesellschaft**

Koenig & Bauer expanded its product portfolio in 2018 in response to the expanding service business and strong customer demand. In cooperation with S.E.M. Servicegesellschaft, Koenig & Bauer can now offer almost all services relating to printing presses.

## **About Koenig & Bauer**

Koenig & Bauer is the world's second-largest printing press manufacturer with the broadest product range in the industry. For 200 years, the company has been supporting printers with innovative technology, tailor-made processes and a wide array of services. The portfolio ranges from banknotes, via board, film, metal and glass packaging, through to book, display, coding, magazine, advertising and newspaper printing. Sheetfed and webfed offset and flexo printing, waterless offset, intaglio, simultaneous perfecting and screen printing or digital inkjet – Koenig & Bauer is at home in virtually all printing processes and is the market leader in many of them. In the financial year 2017, approximately 5,600 highly qualified employees worldwide generated annual sales of more than EUR 1.2 billion.
