**alfaQuest
Installs Esprit Violet CTP at
Nine Newspaper Operations**

Rolling Meadows, IL, July 19, 2011 — alfaQuest Technologies is pleased to announce the following newspaper installations of their Esprit violet CTP imagers and CTP Workflow solutions to:

Montrose Daily Press, Montrose CO
Wapakoneta Daily News, Wapakoneta OH
Shelby Daily Globe, Shelby OH
Starkville Daily News, Starkville MS
Ridgway Record, Ridgway PA
Benton Courier, Benton AR
Sand Mountain Reporter, Albertville AL
McKeesport Daily News, McKeesport PA
Douthit Communications, Sandusky OH

The alfaQuest Esprit CTP systems are equipped with state-of-the-art imaging technology and use a highly reliable opto-mechanical transport system with 3 point registration, which guarantees precision plate alignment and positioning, ensuring accurate repeatability for color registration.

The alfaQuest CTP configurations offer the lowest investment and support prices of any violet CTP. Violet laser technology offers dramatically less energy consumption than any other CTP technology, specifically thermal CTP devices.

Less green from your pocket — more green for the planet.

alfaQuest Technologies is a leading provider of innovative and leading edge publishing systems, imaging devices and workflow management systems. Our products include the FasTRAK, NewsXpress and Esprit Violet CTP, TRAKmate 2 and NewsMATE Autoloaders. Workflow solutions include PrintExpress/CPM (Consolidated Production Management) RipExpress II and PLATEmate systems for Sun and Windows and alfa CTP Workflow systems for Macintosh and Windows.

alfaQuest Technologies, Inc., a member of the IPA Group of companies, designs, integrates, and supports powerful cost-efficient, newspaper workflow page processing and imaging systems for the publishing industry. The number of worldwide installations now exceeds 10,000.
